July 19, 1959

Commander
Ground Electronics Engineering Installation Agency
Griffiss Air Force Base,
Rome, New York

Dear General Neal:

I would like to express my gratitude to you and to the personnel of your command for the excellent training the 244th GEEIA Squadron, Oregon Air National Guard received during our annual summer encampment. Specifically, I desire to commend Captain D. C. Lyle, Commander, and the officers, non-commissioned officers and airmen of the 2867th GEEIA Squadron, Hamilton Air Force Base. In addition, engineering training for our officers was received from Lt. Col. R. S. Haines, Commander, SMAMA, GEEIA Region and Captain John E. Wildman from your headquarters. The excellent cooperation and superior type of practical ground electronics installation and engineering work provided by the members of your command brought about the successful culmination of our third year phase of an intensive on-the-job training program here at Portland International Airport.

I visited all of the training locations with the exception of McChord Air Force Base, due to its distant location, and personally observed the equipment installations work being accomplished by members of my squadron. In all cases, after talking to my squadron personnel and the supervisory personnel of the 2867th GEEIA Squadron, it was very evident that the training being given was mutually satisfactory.

The work and experience that our personnel received will be exceptionally valuable in conducting our training during the next year. I also feel that the training accomplished more than justified the time, money and effort extended to us by the Air Force.

Again, I wish to thank you and the officers and airmen of your command for the superior cooperation and training you have extended to the personnel of the 244th GEEIA Squadron. We will be looking forward with enthusiasm to our next encampment.

Very truly yours,

ALBERT E. GARVIN
Major, OREANG
Commander
