Dear Wayne

Just a brief note to express my sincere appreciation for your kind hospitality during my visit to the 252d. As we discussed, the visit was most productive and informative in expanding my appreciation for the extensive capability of the 252d.

You are extremely well justified in the pride you have for the 252d. The men and women making up the units are true professionals in every respect—as they demonstrated at BORDER STAR and during the recent 36-hour exercise.

Again, my sincere thanks for your efforts in making my visit the huge success it was.

Warmest regards

Dear Sir:

The National Weather Service would like to extend our special thanks to your squadron for the use of a power generator at our office at 5420 N.E. Marine Drive on the north side of the airport for a power switching problem that we had recently. Chief Norby and two of his men brought the generator and were on duty at our office for over 3 hours. We appreciate their help and cooperation. They were very pleasant to work with. Mr. Bob Butcher was very helpful in making the arrangements.

Thanks very much. We appreciate this excellent cooperation.

Sincerely,

James D. Wakefield
